# KITCHENER REPORTS LOSS

# COL. MURRAY IS KILLED AND 20 PRISONERS TAKEN

Men Captured in Other Engagements Are Released—British Take Commandos With Supplies.

London, Sept. 22.—The War Office has received the following dispatch from Lord Kitchener, dated Pretoria, September 22d:

"Krittinger, while endeavoring to force a passage of the Orange river near Herchel at 1 o'clock Friday morning, rushed the camp of a party of Lovat's scouts. He failed to cross the river, but the scouts lost heavily. Lieutenant Colonel Murray and Captain Murray, his Adjutant, were killed. I deeply regret the loss of Colonel Murray, who throughout the war had Lovat's scouts with great gallantry.

"Under cover of darkness the Boers managed to carry off a gun. They were promptly followed up and the gun was recovered in a smart engagement, in which Krittinger lost two killed and twenty taken prisoners."

Lord Kitchener also reports that the British captured by the Boers in the ambush near Scheepers Nek, September 17th, have been released and that the British casualties in the recent Vlakfontein engagement, when the Boers captured a company of mounted infantry and two guns, were one officer and five men killed, twenty-two men wounded and six officers and 109 men taken prisoners. He announced that these prisoners have since been released.

He further reports the capture of two commandos—one consisting of fifty-two men under Commandant Kocho, who were taken together with their entire transport, west of Adenburgh, and the other, consisting of fifty-four men, including J. P. Botha, who were taken with forty-eight wagons and their belongings forty-five miles southeast of Carolina.

# STRIKE CONDITIONS.

San Francisco, Sept. 2.—Work along the waterfront has resumed its normal condition and vessels are loading and discharging goods being hauled to and from the docks with facility and dispatch. The vigorous action of the police has reduced the interference with the work of the port to a minimum. The men that came forward in the emergency are becoming more useful every day, and as none of the labor in voluntary idleness could be classed as "skilled" the existence of the strike will soon be more a matter of discussion in the councils of the City Front Federation than a factor in the commercial machinery of the port.

The British ships Celtic Monarch and King Edward sailed yesterday with full cargoes of grain, and today and tomorrow the following fleet, similarly laden, will get under way: The steamer, Dovenby, Fogelstad, Gienness and W. P. Babcock. The work of discharging the other British ships in port is going on as if no strike existed, and the few passenger-carrying steamers that were compelled for a while to sail at irregular intervals have now resumed their regular schedules.

# BIG YIELD AT PAHALA.

A correspondent from Kau states that the Pahala sugar mill in Kau is turning out about 50 tons of sugar a day and that the yield for the year is about 5000 tons over the estimate. Pahala has had plenty of water throughout the season and therefore all the cane was in excellent condition when the time for grinding came.

There is no Family Medicine so favorably known as PAIN-KILLER. For sixty years it has been used by Missionaries in all parts of the world, not only to counteract the climatic influences on their families, but for the cure of all diseases of the bowels, and for wounds, burns, bruises, etc. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c and 50c.

# BY AUTHORITY.

Office of the Board of Health, Honolulu, Oct. 2, 1901.

At a meeting of the Board of Health held October 2, 1901, Sections 7, 8 and 9 of "Amendments to Plumbing Regulations of the Board of Health for Honolulu Districts," were amended to read as follows:

House Sewer. Section 7. The term house sewer is here used to designate that part of the drain between the sewer or cesspool and to within five feet of any building. It shall not be less than four inches or more than six inches in diameter, and may be of cast iron pipe or vitrified pipe or of other material, and shall be laid to a true grade. Changes in direction shall be made by "Y" branches and bends. If vitrified pipe is used it shall have a fall of at least one-quarter of an inch to the foot, the joints shall be made of mortar composed of equal parts of Portland Cement and clean-screened sand; said joints to be covered with cloth in laying; a disk entirely filling the pipe shall be kept in the pipe and drawn forward as each length is laid, and it shall have a fall of not less than three-sixteenths of an inch to the foot. There shall be no obstruction to the free flow of air in the house sewer when connected with the public sewer.

House Drains. Section 8. The term house drain is here used to designate that part of the drain under the first floor of the building and extending five feet outside of the walls of the building. The house drain shall be of iron pipe not less than four inches in diameter and shall have a fall of not less than 3-16 of an inch to the foot. In buildings of over four stories in height the grade of cast iron pipe commercially known as EXTRA HEAVY shall be used. It shall be securely fringed to walls or laid in trenches of uniform grade or suspended to floor timbers by strong iron hangers as the Plumbing Inspector may direct. The house drain must be continued unobstructed and undiminished in size, to at least two feet above the highest line of the roof, and the open end must be at least ten feet from any opening in the building and from any adjoining building.

Soil Pipe. Section 9. The term soil pipe is here used to designate the vertical pipe to which one or more water closets and other fixtures are connected. It shall be of iron pipe not less than four inches in diameter, and if of cast iron, in buildings of over four stories in height shall be of EXTRA HEAVY grade. It shall be continued unobstructed and undiminished in size through the roof, the same as the house drain. Horizontal soil and waste pipes are prohibited. A wire-grip shall be put at the top of the soil pipe.

H. C. SLOGETT, President Board of Health.

Attest: C. CHARLOCK, Secretary Board of Health.

# PACIFIC UNION OIL CO.

Located in the Famous Coalings Oil Fields of California.

Proven oil lands, completely surrounded by as rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day.

Contract prices for oil at the Coalings wells, 70 cents per barrel.

With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits.

The oil industry of California is in its infancy, yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future.

The average advance on original sales of oil stock in twenty leading companies in California has been from \$1 to \$108 per share.

Oil lands have advanced from \$1.25 to \$1,000 and \$2,000 per acre.

When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from \$1 to \$1,500 per share.

The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity, who will see that the money derived from the sale of stock will be legitimately applied to the development of its property.

For further information, apply to J. H. FISHER & CO., Stock and Bond Brokers, and Hawaiian agents for the sale of a limited amount of Pacific Union Oil Company stock, Stangenwald building, Merchant street, 1922-6mo
